## REVIEW OF OPERATIONS

Lustrum Minerals Limited (ASX: **LRM**) (**Lustrum**) (**Company**) is pleased to provide a summary of its activities for the twelve (12) months ending 30 June 2018 (**Period**). The Company initially completed its Initial Public Offer to raise \$5,000,000 at \$0.20 per share on 14 November 2017 (**IPO**).

Lustrum's Consuelo Project is comprised of three (3) Exploration Permits for Coal (EPCs 2327, 2318 and 2332, together the **EPCs** or **Project**) in Queensland's Bowen Basin, located south of the town of Rolleston and the operating 'Rolleston' high quality thermal coal mine.

As announced 29 January 2018 ("Coal Intersected at Consuelo"), the Company completed its maiden drilling campaign at the Project, drilling two (2) open percussion holes in the Western sections of EPC 2327 and EPC 2318 (**Initial Drilling**).

Subsequent to the Initial Drilling, the Company announced the further drilling of Consuelo on 5 March 2018 ("Exploration Success Continues at Consuelo: Third Drill Hole Intersects Coal Sequence"), where the Company completed its third (3) drill hole (CON003) on the western section of EPC 2327 (Secondary Drilling).

A summary of the Initial Drilling and Secondary Drilling is captured in Table 1, below:

Hole	Easting	Northing	Elevation	Dip	Hole Depth	Top of Coal	Thickness of Sequence
CON001	646998.537	7267267.230	256m	90°	333	80.90	67.35
CON002	654798.380	7271978.740	226m	90°	911.68	685	78.00
CON003	646805.000	7266285.000	TBA	90°	654	144.60	91.60

**Table 1:** Drilling during the Period

## DIRECTORS' REPORT

---

The Company announced the completion of its fourth (4) drill hole (CON004Q) for a total of 2,103.2 meters on 25 June 2018 ("Exploration Update at Consuelo"). Post the drilling of CON004Q, the most prospective area within the Consuelo project remained the north-western portion of EPC 2327. An initial review of seismic reflectors showed shallow reflectors within the EPC, a grid was created using depths from seismic interpretation for the top of Bandanna Formation which was correlated with the Company's previous drilling and CON004Q.

There were generally excellent correlations of the coal sequence recorded on the single traverse completed on EPC 2327, which covered a broadly north – south strike length of approximately 1 km.

Downhole geophysical logging, geological logging of drill chips and core, and the coal quality analysis of seams intersected in CON004Q confirm the coal seams intersected correlate very well with coal seams hosted in the Bandanna Formation, the sequence being mined at the nearby Rolleston Coal Mine.

Seam samples submitted to ALS Global's Emerald Laboratory for coal quality analysis generally confirmed that the main seams are generally:

- low in ash (8.7 to 14.4% ad);
- very low in sulphur (0.24 to 0.3% ad);
- moderate to high calorific value (5521 to 6126 kcal/kg ad);
- with relatively high inherent moisture (11.1 to 12.7% ad); and
- no reported coking coal properties.

On 14 May 2018 the Company announced a share buy-back of up to 4,000,000 shares in the Company's equity.

### **SIGNIFICANT CHANGE IN THE STATE OF AFFAIRS**

No significant changes in the Company's state of affairs occurred during the period.

### **PRINCIPAL ACTIVITIES**

The Company is a mineral exploration company and was incorporated for the purpose of assessing opportunities in the natural resources sector.

The Company is mindful that it must constantly assess new opportunities for the Company to ensure the long-term creation of shareholder value.

### **EVENTS SUBSEQUENT TO THE END OF THE REPORTING PERIOD**

Post the end of the financial year, on 16 September 2018 the Company received shareholder approval for a further 6,000,000 to also be bought back. At the time of this report 4,136,001 ordinary shares in the Company have been cancelled pursuant to this buy-back of the original 40,000,001 on issue at the completion of the Company's IPO.

At the time of this report there were no further events subsequent to the reporting date that required disclosure.

### **FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES**

Further information, other than as disclosed the Directors' Report, about likely developments in the operations of the Company and the expected results of those operations in future years has not been included in this report as disclosure of this information would be likely to result in unreasonable prejudice to the Company.

## AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration, as required under section 307C of the *Corporations Act 2001* for the year ended 30 June 2018 has been received and can be found on page 10.

# REMUNERATION REPORT (AUDITED)

---

The remuneration report is set out under the following main headings:

- A. Principles used to determine the nature and amount of remuneration
- B. Details of remuneration
- C. Director's equity holdings

The information provided in this remuneration report has been audited as required by section 308(3C) of the *Corporations Act 2001*.

## **A. PRINCIPLES USED TO DETERMINE THE NATURE AND AMOUNT OF REMUNERATION**

The whole Board form the Remuneration Committee. The remuneration policy has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component with the flexibility to offer specific long-term incentives based on key performance areas affecting the Company's financial results. The Board believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors and executives to manage the Company.

The Board's policy for determining the nature and amount of remuneration for Board members and senior executives is as follows:

- The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was developed by the Board. All executives receive a base salary (which is based on factors such as length of service and experience) and superannuation. The Board reviews executive packages annually and determines policy recommendations by reference to executive performance and comparable information from industry sectors and other listed companies in similar industries.
- The Board may exercise discretion in relation to approving incentives, bonuses and options. The policy is designed to attract and retain the highest calibre of executives and reward them for performance that results in long term growth in shareholder wealth.
- All remuneration paid to directors and executives is valued at the cost to the Company and expensed.
- The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the non-executive directors and reviews the remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the Company.

The remuneration policy has been tailored to increase the direct positive relationship between shareholders' investment objectives and directors and executive performance. Currently, this is facilitated through the issue of options to the directors and executives to encourage the alignment of personal and shareholder interests. The Company believes this policy will be effective in increasing shareholder wealth. The Company currently has no performance-based remuneration component built into director and executive remuneration packages.

## **NON-EXECUTIVE DIRECTORS**

The remuneration of Non-Executive directors consists of directors' fees, payable in arrears. The total aggregate fee pool to be paid to directors (excluding Executive directors) is set at \$250,000 per year. Remuneration of Non-Executive directors is based on fees approved by the Board of directors and is set at levels to reflect market conditions and encourage the continued services of the directors. Non-Executive directors do not receive retirement benefits but are able to participate in share-based incentive programmes in accordance with Company policy.

## DIRECTORS' DECLARATION

---

The directors declare that the financial statements and notes are in accordance with the *Corporations Act 2001*:

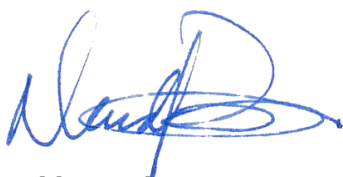

- (a) Comply with Accounting Standards and the *Corporations Regulations 2001*, and other mandatory professional reporting requirements;
- (b) As stated in Note 1, the financial statements also comply with International Financial Reporting Standards; and
- (c) Give a true and fair view of the financial position of the Group as at 30 June 2018 and of its performance for the year ended on that date.

In the directors' opinion there are reasonable grounds to believe that Lustrum Minerals Limited will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declaration required to be made by the Executive Chairman to the directors in accordance with sections 295A of the *Corporations Act 2001* for the financial year ended 30 June 2018.

This declaration is made in accordance with a resolution of the directors.

**David Prentice**

Executive Chairman

Perth, Western Australia this 28<sup>th</sup> day of September 2018.

**Independent Auditor's Report**  
to the Members of Lustrum Minerals Limited

**REPORT ON THE AUDIT OF THE FINANCIAL REPORT**

**Opinion**

We have audited the financial report of Lustrum Minerals Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year then ended; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

### Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

### **Auditor's Responsibilities for the Audit of the Financial Report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**REPORT ON THE REMUNERATION REPORT**

**Opinion on the Remuneration Report**

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Lustrum Minerals Limited for the year ended 30 June 2018 complies with section 300A of the *Corporations Act 2001*.

**Responsibilities**

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

# NOTES TO THE FINANCIAL STATEMENTS

## for the year ended 30 June 2018

---

### GENERAL INFORMATION

Lustrum Minerals Limited (the Company and controlled entities) is a for-profit company limited by shares, domiciled and incorporated in Australia. The financial statements are presented in whole Australian dollars.

The nature of operations and principal activities of the Company are described in the Directors' Report.

### 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements are general purpose financial statements which have been prepared in accordance with the *Corporations Act 2001*, Accounting Standards and Interpretations, and comply with other requirements of the law.

The financial statements comprise the consolidated financial statements of the Company and its controlled entities (collectively the Group).

The financial statements were authorised for issue by the directors on 28 September 2018.

#### 1.1. BASIS OF PREPARATION

The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Group is a for-profit entity. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated. The financial statements have been prepared on a historical cost basis.

#### 1.2. STATEMENT OF COMPLIANCE

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (**AASB**) which include Australian equivalents to International Financial Reporting Standards (**AIFRS**). Compliance with AIFRS ensures that the financial statements, and notes thereto comply with International Financial Reporting Standards (**IFRS**).

Australian Accounting Board Standards (**AASBs**) set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with AASBs ensures that the financial statements and notes also comply with IFRS as issued by the IASB.

#### 1.3. FINANCIAL POSITION

The financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the financial year ended 30 June 2018, the Company incurred a net loss after tax of \$3,267,106 (2017: \$207,761), and a net cash outflow from operations of \$1,122,770 (2017: \$255,327). At 30 June 2018, the Company's has net current assets of \$3,447,719 (2017: \$265,728) and net equity of \$3,314,569 (2017: \$260,729).

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2018

---

The Directors consider the going concern basis of preparation to be appropriate based on the current cash reserves showing to provide sufficient working capital to fund its contracted obligations for the period ending 12 months from the date of this report.

## 1.4. ADOPTION OF NEW AND REVISED STANDARDS

### 1.4.1. Changes in accounting policies on initial application of Accounting Standards

#### Standards and interpretations applicable to 30 June 2018

In the year ended 30 June 2018, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company's operations and effective for the current financial reporting period.

It has been determined by the Directors that there is no material impact of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Company accounting policies.

#### Standards and interpretations on issue not yet adopted

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2018. As a result of this review the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on its business and, therefore, no change necessary to Company accounting policies.

## 1.5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### 1.5.1. Share-based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a Black-Scholes model.

## 1.6. PRINCIPLES OF CONSOLIDATION

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered (left) the Consolidated Group during the year, their operating results have been included (excluded) from the date control was obtained (ceased).

### 1.6.1. Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

# NOTES TO THE FINANCIAL STATEMENTS

## for the year ended 30 June 2018

---

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Company. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

### 1.6.2. Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

### 1.6.3. Transactions eliminated on consolidation

All intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

## 1.7. INCOME TAX

The charge for current income tax expense is based on the result for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted by the balance date or reporting date.

Deferred tax is accounted for in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised, or liability is settled. Deferred tax is credited to profit or loss except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

## 1.8. IMPAIRMENT OF ASSETS

The Company assesses at each balance date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

# NOTES TO THE FINANCIAL STATEMENTS

## for the year ended 30 June 2018

---

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

### 1.9. PROVISIONS

Provisions are recognised when the Company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result, and that outflow can be reliably measured.

### 1.10. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

### 1.11. REVENUE RECOGNITION

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets. All revenue is stated net of the amount of goods and services tax (GST).

### 1.12. GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

### 1.13. ISSUED CAPITAL

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a new business are not included in the cost of acquisition as part of the purchase consideration.

### 1.14. BORROWINGS

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2018

---

The fair value of the liability portion of a convertible note is determined using a market interest rate for an equivalent non-convertible note. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or maturity of the note. The remainder of the proceeds is allocated to the conversion option. This is recognised and included in shareholders' equity, net of income tax effects.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

## 1.15. EXPLORATION AND EVALUATION COSTS

Mineral exploration and evaluation costs are expensed as incurred. Acquisition costs will normally be expensed but will be assessed on a case by case basis and if appropriate may be capitalised. These acquisition costs are only carried forward to the extent that they are expected to be recouped through the successful development or sale of the tenement. Accumulated acquisition costs in relation to an abandoned tenement are written off in full against the profit and loss in the year which the decision to abandon the tenant is made

Where a decision has been made to proceed with development in respect of a particular area of interest, all future costs are recorded as a development asset.

## 1.16. EMPLOYEE ENTITLEMENTS

### 1.16.1. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

### 1.16.2. Long Service Leave

The liability for long service leave is recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Based on the Company's experience of employee departures, a long service leave liability is only recognised once an employee has been employed by the Company for a period of 5 years. Expected future payments are discounted using market yields at the reporting date on national Government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

## 1.17. SHARE-BASED PAYMENT TRANSACTIONS

### 1.17.1. Equity settled transactions

The Company provides benefits to employees (including senior executives) of the Company in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

# NOTES TO THE FINANCIAL STATEMENTS

## for the year ended 30 June 2018

---

The cost of equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using a Black-Scholes model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Lustrum Minerals Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects:

- a) the extent to which the vesting period has expired, and
- b) the Company's best estimate of the number of equity instruments that will ultimately vest.

No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of profit and loss and other comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

### **1.18. TRADE AND OTHER RECEIVABLES**

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less any allowance for impairment. Trade receivables are generally due for settlement within periods ranging from 15 days to 30 days.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Company will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Company in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Company. The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2018

The amount of the impairment loss is recognised in the statement of profit and loss and other comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of profit and loss and other comprehensive income.

## 1.19. TRADE AND OTHER PAYABLES

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Company prior to the end of the period that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services.

(i) A Class A Performance Share in the relevant class will convert into one Share upon the delineation of an "indicated mineral resource" (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 50 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021.

(ii) A Class C Performance Share in the relevant class will convert into one Share upon the delineation of an "indicated mineral resource" (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 150 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2018

## 6. FINANCIAL INSTRUMENTS

### 6.1. CAPITAL RISK MANAGEMENT

The Company manages its capital to ensure that entities in the Company will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Company's overall strategy remains unchanged during the financial period.

The capital structure of the Company consists of debt, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings.

None of the Company's entities are subject to externally imposed capital requirements.

Operating cash flows are used to maintain and expand operations, as well as to make routine expenditures such as tax, dividends and general administrative outgoings.

Gearing levels are reviewed by the Board on a regular basis in line with its target gearing ratio, the cost of capital and the risks associated with each class of capital.

### 6.2. CATEGORIES OF FINANCIAL INSTRUMENTS

#### 6.2.1. FINANCIAL ASSETS

	Weighted Average Interest Rate %	2018 \$
Cash and cash equivalents	1.79%	3,292,303
Trade and other receivables	-	86,416
Loans to other parties	20%	69,000

#### 6.2.2. FINANCIAL LIABILITIES

Trade creditors	-	(118,150)
Accruals	-	(15,000)

#### 6.2.3. FINANCIAL RISK MANAGEMENT OBJECTIVES

The Company is exposed to market risk (including currency risk, fair value interest rate risk and price risk), credit risk, liquidity risk and cash flow interest rate risk. The Company seeks to minimise the effect of these risks, by using derivative financial instruments to hedge these risk exposures. The use of financial derivatives is governed by the Company's policies approved by the board of Directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by management on a continuous basis. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

# NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2018

## 6.2.4. INTEREST RATE RISK SENSITIVITY ANALYSIS

The sensitivity analysis above has been determined based on the exposure to interest rates for both derivative and non-derivative instruments at balance date and the stipulated change taking place at the beginning of the financial period and held constant throughout the reporting period.

A 10-basis point increase is used when reporting interest rate risk internally to management and represents management's assessment of the change in interest rates.

At balance date, if interest rates have been 10 basis points higher or lower and all other variables were held constant, the Company's:

- (i) Profit or loss would increase by \$32,923; and
- (ii) Equity would decrease by \$8,852.

	<u>1,600,000</u>	<u>-</u>

### 14.2. CONTINGENT LIABILITIES

No contingent liabilities exist as at the date of this report.

## 15. FAIR VALUE MEASUREMENT

The Directors consider that the carrying amount of other financial assets and liabilities recognised in the consolidated financial statements approximate their fair value.

## 16. RELATED PARTIES TRANSACTIONS

During the year ended 30 June 2018 the following related party transaction was undertaken between the Group and director related entities:

On 1 July 2017, the company entered into an agreement with Cicero Corporate Services Pty Ltd (**CCS**), of which Mrs Loren King is a shareholder, (**Corporate Services Agreement**). Pursuant to the Corporate Services Agreement, the CCS was appointed to provide corporate and administrative services to the Company. The fee payable by the Company to CCS in consideration for performing the services under the Corporate Services Agreement is A\$120,000 per annum.

The Company has not sought Shareholder approval for the execution of the proposal despite CCS being a related party of the Company on the basis that the Proposal has been negotiated at arm's length and contains standards commercial terms and therefore falls within the exception on section 210 of the Corporations Act.

## 17. ACQUISITION OF CONSUELO ASSETS

### 17.1. SHARE SALE AGREEMENT WITH CONSUELO COAL HOLDINGS PTY LIMITED

Following the Company listing on the ASX the Company acquired 100% of CCPL's shares in consideration for \$2,000,000 in consideration consisting of 10,000,000 Shares at \$0.20 per share and 30,000,000 performance shares consisting of; 15,000,000 Class A performance shares, and 15,000,000 Class C performance shares (together, the **Consideration**) and deferred consideration.

The performance shares detailed in the Consideration convert into one (1) fully paid ordinary share in the Company and one (1) new performance share for every one (1) of the initial Class A And Class C performance share that are triggered to convert.

Class A performance shares convert on the Project generating an indicated mineral resource (JORC 2012) of not less than 50 million tonnes of Coal before 30 June 2021 (**Class A Performance Shares**).

Class C performance shares convert on the Project generating an indicated mineral resource (JORC 2012) of not less than 150 million tonnes of Coal before 30 June 2021 (**Class C Performance Shares**). Should the Class A Performance Shares convert, the holders will receive one (1) Share and one (1) new class B performance share for every one (1) Class A Performance Share successfully converted. Should the Class C Performance Shares convert, the holders will receive one (1) Share and one (1) new class B performance share for every one (1) Class D Performance Share successfully converted.

Class B Performance Shares convert into ordinary Shares on a one for one (1:1) basis on the Project generating an indicated mineral resource (JORC 2012) of not less than 100 million tonnes of Coal before 30 June 2021 (**Class B Performance Shares**). Class D Performance Shares convert into ordinary Shares on a one for one (1:1) basis on the Project generating an indicated mineral resource (JORC 2012) of not less than 300 million tonnes of Coal before 30 June 2021 (**Class D Performance Shares**).

### 17.2. DEFERRED CONSIDERATION

<b>Assets Acquisition accounting is as follows</b>			
Exploration and Evaluation asset on acquisition <sup>(v)</sup>			<u>2,000,000</u>
Total consideration			<u>2,000,000</u>

# NOTES TO THE FINANCIAL STATEMENTS

## for the year ended 30 June 2018

No value has been ascribed to the deferred consideration as the Company has not yet reached a stage where it can reliably estimate the likelihood of the milestones being achieved.

- (i) A Class A Performance Share in the relevant class will convert into one Share upon the delineation of an "indicated mineral resource" (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 50 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021.
- (ii) A Class C Performance Share in the relevant class will convert into one Share upon the delineation of an "indicated mineral resource" (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 150 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021.
- (iii) 15,000,000 shares upon the delineation of an "indicated mineral resource" of (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 100 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021; and
- (iv) 15,000,000 Shares upon the delineation of an "indicated mineral resource" (as that term is defined in JORC, 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves) of not less than 300 million tonnes of coal at greater than 5,000 kcal/kg at the Project on or before 30 June 2021.
- (v) Mineral exploration and evaluation costs are expensed as incurred. Acquisition costs will normally be expensed but will be assessed on a case by case basis and if appropriate may be capitalised. These acquisition costs are only carried forward to the extent that they are expected to be recouped through the successful development or sale of the tenement. Accumulated acquisition costs in relation to an abandoned tenement are written off in full against the profit and loss in the year which the decision to abandon the tenement is made. Where a decision has been made to proceed with development in respect of a particular area of interest, all future costs are recorded as a development asset.
